

Ulti MATE

FULLY MODULAR / EXPANDABLE DESIGN

>> ULTIMATE IN STYLE, FUNCTION & DESIGN

Developed to add style and sophistication through modern design, UltiMATE Garage cabinets are built using polyurethane coated MDF doors and facings for a clean, finished and refined look. Cabinets are assembled using melamine laminate over MDF for maximum strength and stability.

BUILD A CONFIGURATION FOR ANY GARAGE

Unique MDF construction has clean lines for an unparalleled, contemporary style. Oversized 9mm brushed zinc pulls and handles offer comfort and utility, while Euro hardware and roller bearing slides offer ease of use, quality feel and reliability. Built from 19mm MDF makes the UltiMATE Garage one of the strongest most durable ready to assemble systems available.

Chrome adjustable feet elevate your system off the ground. Making it easier to clean under your cabinets and adjust on uneven ground.
